

Village of Acme

2023 Strategic Planning Report

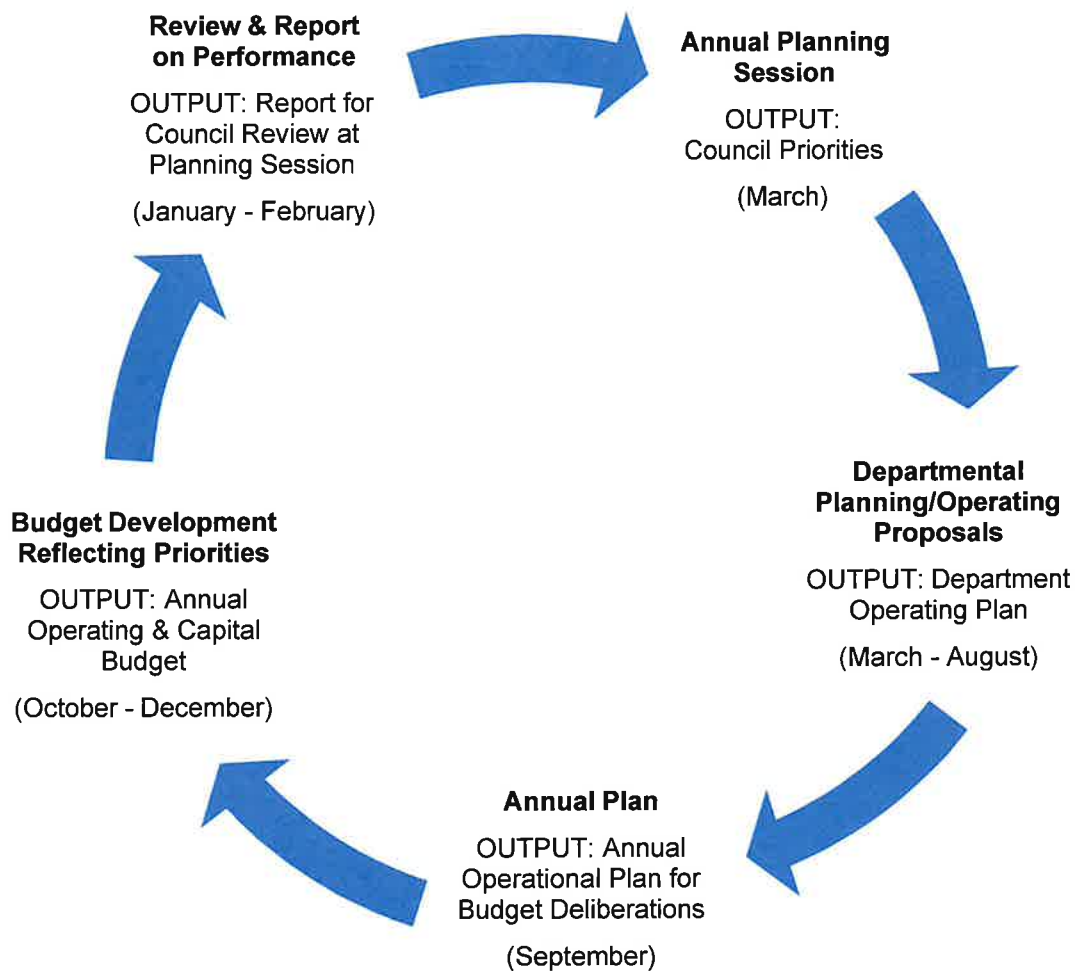

April 2023
Approved April 24th, 2023
Motion # 072-2023

Introduction

The Village of Acme Council held a Strategic Planning Session on March 21st, 2023. The session was conducted by the Chief Administrative Officer (CAO), Gary Sawatzky.

A planning session should be scheduled in 2024 to review and evaluate the plan and make changes as necessary. The annual planning cycle is illustrated below.

2023 Strategic Plan

The 2023 plan identified several overarching goals:

1. The Village of Acme will promote Development – both residential and commercial.
2. The Village of Acme will proactively maintain and manage all capital assets in a way that:
 - a. considers current and future needs,
 - b. manages risks and opportunities, and
 - c. uses resources wisely.
3. The Village of Acme will continue to assess their capital assets with an eye to the future.
4. The Village of Acme will proactively manage the storm water system.
5. The Village of Acme will promote tourism.
6. The Village of Acme will collaborate with neighbouring municipalities.

The 2023 Planning Session reviewed an internal assessment of the 2022 goals and related strategies, and the 2022 outcomes formulated the direction for 2023.

Vision

The Village of Acme will strive to provide excellent services, facilities and other enhancements that are both necessary and desirable for all or a part of the Village. To have a community that is safe and viable and growing.

Mission

The Village of Acme will accomplish our Vision by providing good governance in looking ahead while engaging with the community for what is needed today and into the future.

Next Steps

Once the strategic plan is adopted by the Village of Acme Council, administration will complete an action plan for each goal and strategy. The plan will answer the question, "Who is responsible for moving the plan forward?"

True success in strategic planning is demonstrated by consistent use of the plans as a decision-making tool. This should be evident at all levels of the organization, from staff, administration, Council, stakeholders, and residents. The plan should provide guidance and be used as a measurement of progress. Ultimately, all Council decisions and administrative actions should move the Village towards achieving its goals of the 2023 Strategic Plan.
